Contacting Support

If you need to report that something is broken or need technical assistance with something not covered in Wurk Help, your System Administrator can contact Wurk Support:

- **Submit a ticket** here (login credentials required).
- **By** email
- Phone: **(720) 707-1676**

> If you submit a ticket, please explain in detail the issue you're experiencing and describe your situation; provide screenshots for better assistance. For special add-on services beyond Support, please contact your Wurk Account Manager.

Submitting feedback on Wurk Help topics does not guarantee a response. If you need urgent assistance, your Administrator should contact Wurk Support (support@enjoywurk.com).

Not finding what you need in Wurk?
The easiest way to find anything in Wurk is from the main "hamburger" menu by using the **search** bar.
